

This email provides important information from Midwest Driving School outlining the steps your child must take to obtain a learner's permit at age 15.

When Can Students Start?

Students must be at least 15 years old to begin a driver's education program and obtain a Learner's Permit.

Students may register at age 14; however, the BMV written test requires the student to be 15 years old.

Steps to Obtain a Permit / License

1. Register with Midwest Driving School www.midwestdrivingschool.us
 2. Visit the BMV to take the written test for the Learner's Permit
(Don't forget to bring all required documents) See below
 3. Complete the 30-hour online course
(We recommend completing this before scheduling drives)
 4. Begin logging the 50 required practice hours
(6 of these hours will be completed with Midwest Driving School)
 5. Once at least 20 of the 50 hours are completed, contact us to schedule the 6 behind-the-wheel driving sessions
-

Driving Skills Test

Don't forget the Driving Skills Test!

Midwest Driving School is certified to administer this test, so you do not need to complete a vehicle inspection at the BMV. Plus, your child will already be familiar with our vehicles and instructors—why not take advantage of that?

Documents Required at the BMV for a Learner's Permit

- Original Birth Certificate
 - Social Security Card
 - Two (2) Proofs of Address
 - Certificate of Driver's Education (CDE Form) from Midwest Driving School
(Issued after registration is complete)
 - A parent or guardian must sign a financial responsibility agreement
 - Must pass the BMV written test
 - Must pass the vision test
-

How Do I Schedule Driving Sessions?

Before scheduling, students must:

- Have a Learner's Permit
- Complete the 30-hour online course
- Complete at least 20 of the 50 required practice hours

Once these requirements are met, email us to schedule your 6 behind-the-wheel driving sessions and Driving Skills Test

Thank You
