### Statement of Policy

The School Board authorizes school sponsored student publications and productions as means of instructing students, under adult supervision, in the process of responsible creative expression.

The publications and productions of the School Corporation are not public forums. They are solely for students’ use and for the expression of values inherent in the Board-established curriculum.

The Board, while maintaining the ultimate authority, looks to staff and administrators to apply the criteria in this Policy to guide them in their work. Administrators and staff are authorized to exercise broad editorial discretion, which is based upon reasonable educational concerns when evaluating material submitted for inclusion in school-sponsored publications.
