DATE: July 30, 2025 (August 4, 2025 Board Meeting)

RE: Proposed 2025-2026 School Fees

The recent legislative session addressed the ambiguities surrounding curricular materials and fees. State code now allows schools to charge reasonable fees for non-curricular supplemental items. Curricular items are defined as textbooks, workbooks, technology hardware and software. Items outside of this definition can now be charged as a fee to families. This change will allow us to recoup revenue for expenditures that are not covered by the current \$158 per student the state is currently passing through to districts through monthly tuition support for curricular materials.

Attached are the proposed fees by grade level for West Lafayette Elementary School and West Lafayette Intermediate School and by course for West Lafayette Jr./ Sr. High School. The fees cover supplemental materials that the students will either consume, get to keep, or use as part of a project that will be taken home.

Please place this item on the agenda for the Monday, August 4<sup>th</sup> board meeting. Let me know if you have any questions.
