Out-of-School Care

West Lafayette Schools provides this resource list as a service to our families seeking options for out-of-school care. All programs listed are independently owned and operated. Programs listed provide a variety of services to help support the need for out-of-school care with various before-school, after-school and summer options for care. The district does not endorse any program. **Families are encouraged to review the *Indiana Child Care Finder site to search for providers and to research the most up-to-date licensing status of childcare providers in Indiana; search "Find Child Care."***
